1 Corporate information

Sen Yue Holdings Limited (“**Company**”) is a company incorporated in Singapore. The Company’s registered office is at 3 Jalan Pesawat, Singapore 619361. The Company is listed on the Catalist Board of the Singapore Exchange Securities Trading Limited (“**SGX-ST**”).

The immediate and ultimate holding company is Electroloy Metal Pte. Ltd. (“**Electroloy**”), a company incorporated in Singapore.

These unaudited condensed interim consolidated financial statements as at and for the six months (“**2H2024**”) and full year ended 30 September 2024 (“**FY2024**”) comprise the Company and its subsidiaries (together referred to as the “**Group**”).

The principal activity of the Company is that of an investment holding company. The Group is organised into the following main business segments:

- (a) Metal components and tool and die (“**Metal Components**”) - includes manufacturing and sales of perforated materials, speaker nets, tool, die and other metal components;
- (b) Electro deposition coating (“**ED Coating**”) - includes ED coating services and secondary process; and
- (c) Commodities - trading of black mass powder and other materials including copper and aluminum.

1.1 Event During the Financial Period

(i) Notice of Assessment (Amended) for YA2021 and YA2022

On 10 January 2024, SMC Industrial Pte Ltd (“**SMCI**”), a wholly-owned subsidiary of the Group, received a letter from Inland Revenue Authority of Singapore (“**IRAS**”) stating the further assessment for Year of Assessment (“**YA**”) 2021 and YA 2022 had been conducted. In view of the issues outlined in the auditors’ report for the financial year ended 30 September 2020 and 2021 dated 15 April 2021 and 28 December 2022 respectively. IRAS has re-assessed SMCI on the basis of “no profit/no loss” for YA 2021 and YA 2022. IRAS has also issued notice of assessment (amended) for YA 2021 and YA 2022, indicating nil balance of unutilised losses and capital allowances.

The Group reversed the DTA related to these unutilised tax losses and capital allowances of S\$2.44 million recorded as at 30 September 2023, and the corresponding effect of incremental tax expenses for the financial years ended 30 September 2022 and 2023 totalled S\$3.25 million, resulting in an aggregate increase in tax expense of S\$5.69 million reflected in FY2024. Please refer to Note 7 for further information, and Note 12 for subsequent development on this matter.

(ii) Conclusion of CAD Investigation

The CAD had on 27 March 2024 informed the Company that it has completed its investigation concerning Mr. Koh Mia Seng (“**Mr. Koh**”), the former executive chairman of the Company, and employees of SMC Technology Sdn. Bhd., and after careful consideration of the facts and circumstances of the case and in consultation with the Attorney-General’s Chambers, the CAD is of the view that a criminal offence is not disclosed. Hence, the CAD have decided not to pursue this matter further.

Please refer to the Company’s announcement dated 27 March 2024 for more details.

(iii) Assistance with Investigation by the Monetary Authority of Singapore

The Company had on 12 April 2024 received an order under Section 20 of the Criminal Procedure Code 2010 from the Enforcement Department of the Money Authority of Singapore ("MAS"). Pursuant to the Order, the Company is required to provide certain documents to assist with the MAS's investigation into offences under the Securities and Futures Act 2001.

Please refer to the Company's announcement dated 14 April 2024 for more details.

2 Basis of Preparation

The unaudited condensed interim financial statements for 2H2024 and FY2024 and its comparatives for the six months ("2H2023") and the full year ended 30 September 2023 ("FY2023") have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The unaudited condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for FY2023.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The unaudited condensed interim financial statements are presented in Singapore dollar ("SGD") which is the Company's functional currency. The functional currencies of the Group include SGD, Ringgit Malaysia, Indonesia Rupiah and United States Dollar ("USD").

2.1 New and amended standards adopted by the Group

The following standards have been issued and are relevant to the Group and the Company, but not yet effective:

		Effective for annual financial periods beginning on or after
SFRS(I) 18	<i>Presentation and Disclosure in Financial Statements</i>	1 January 2027
Amendments to SFRS(I) 10 and SFRS(I) 1-28	<i>Sale or contribution of assets between an investor and its associate or joint venture</i>	Deferred indefinitely, early application is still permitted
Amendments to SFRS(I) 1-1	<i>Classification of Liabilities as Current or Non-current</i>	1 January 2024
Amendments to SFRS(I) 1-1	<i>Non-current Liabilities with Covenants</i>	1 January 2024
Amendments to SFRS(I) 1-7 and SFRS(I) 7	<i>Supplier Finance Arrangements</i>	1 January 2024
Amendments to SFRS(I) 16	<i>Lease Liability in a Sale and Leaseback</i>	1 January 2024
Amendments to SFRS(I) 1 – 21	<i>Lack of Exchangeability</i>	1 January 2025

The adoption of the abovementioned standards is not expected to have any material impact on the financial statements of the Group and the Company in the period of initial application.

2 Basis of Preparation (cont'd)

2.2 Use estimates and assumptions

The preparation of the unaudited condensed interim financial statements for 2H2024 and 2H2023 in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated audited financial statements as at and for FY2023.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next interim period are included in the following notes:

- **Valuation of inventories**

Inventories are stated at the lower of cost and net realisable value ("**NRV**"). NRV represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling, and distribution. The commodities segment purchased battery scraps and processed them into black mass powder and other materials, including copper and aluminum. Management estimates the net realisable value of inventories based on metal trading price available at the London Metal Exchange, purity level of the inventories and estimated future market demand.

- **Uncertain tax positions**

The Group is subject to income taxes in numerous jurisdictions. In determining the income tax liabilities, management has estimated the amount of capital allowances and the deductibility of certain expenses ("**Uncertain Tax Positions**") at each tax jurisdiction.

The Group has significant open tax assessments with a tax authority at the reporting date. As management believes that the tax positions are sustainable, the Group has recognised any additional tax liability on these Uncertain Tax Positions. The maximum exposure of these Uncertain Tax Positions recognised in these financial statements is approximately S\$3.25 million.

3 Seasonal Operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

4 Segment and Revenue Information

For the purpose of management, the Group is organised into business units based on the products and services offered. The Metal Components segment, ED Coating segment and Commodities segment offer different products and services, they are, hence, managed separately as they require different technology and marketing strategies. For each of the segments, the Group's acting Chief Executive Officer ("CEO") reviews internal management reports on at least a monthly basis. The following summary describes the operations in each of the Group's reportable segments:

- (a) Metal Components – includes manufacturing and sales of perforated materials, speaker nets, tool, die and other metal components;
- (b) ED Coating – includes ED coating services and secondary process; and
- (c) Commodities – trading of trading of black mass powder and other materials including copper and aluminum.

There are varying levels of integration between the Metal Components and ED Coating reportable segments. This integration includes ED Coating services for metal component, shared customers, sale of equipment and provision of maintenance services and rental of industrial properties. Inter-segment pricing is determined on an arm's length basis.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the acting CEO. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

The following is an analysis of the Group's revenue and results by reportable segment:

5 Financial Assets and Financial Liabilities

Fair value measurement

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value measurement

The carrying amounts and fair values of financial assets and financial liabilities of the Group as at 30 September 2024 and 30 September 2023, including their levels in the fair value hierarchy are as follows:

8 Property, Plant and Equipment

8.1 Valuation of Freehold Land and Building ("Property Assets")

The management undertook annual review of the carrying amounts of Property Assets under property, plant and equipment for indicators of impairment. Where indicators of impairment were identified, the recoverable amounts were estimated based on internal or external valuations undertaken by the Group.

The fair value of the Group's Property Assets is determined based on significant unobservable inputs and is categorised under Level 3 of the fair value measurement hierarchy. Level 3 fair value has been derived using external valuations to determine the fair value of the Group's property assets.

During the financial period under review, the Group reviewed the fair value of the Group's Property Assets for financial reporting purposes, which has been determined based on the property assets' highest and best use. Accordingly, the management has assessed that the recoverable amount of the Group's Property Assets is above its carrying value and concluded that the Group's Property Assets are not impaired.

2(a) Income Statement

(i) Revenue, cost of sales and gross profit

2H2024 vs 2H2023

	Revenue		
	2H2024	2H2023	Change
	(unaudited)	(audited)	
S\$'000	S\$'000	%	
Metal Components	1,985	1,486	34

Inter-Segment Elimination	(448)	(1,230)	(64)
	18,978	23,820	(20)

The Group reported revenue decline of S\$4.84 million, or 20%, from S\$23.82 million in 2H2023 to S\$18.98 million in 2H2024. The decrease was mainly due to slowing electrical vehicle (“EV”) sales driven by a reduced supply of battery scraps in the first six months of FY2024 (“1H2024”), and sluggish metal prices. As a result, the Commodities segment reported a decrease in revenue by S\$5.95 million or 35% from S\$16.86 million in 2H2023 to S\$10.91 million in 2H2024. However, the overall revenue decline in 2H2024 was partially offset by an increase in Metal Components revenue. Metal Component revenue grew by S\$0.50 million or 34% due to the effort of building new customers base in the prior periods which yielded results in 2H2024.

FY2024 vs FY2023

	Revenue		
	FY2024	FY2023	Change
	(unaudited)	(audited)	
S\$'000	S\$'000	%	
Metal Components	2,871	2,813	2
ED Coating	12,723	14,246	(11)
Commodities	18,531	50,635	(63)
Inter-Segment Elimination	(963)	(1,705)	(44)
	33,162	65,989	(50)

The Group reported a significant decline in revenue of S\$32.83 million or 50% from S\$65.99 million in FY2023 to S\$33.16 million in FY2024. The substantial decrease was primarily influenced by external market conditions, particularly in the Commodities segment. The reduced supply of battery scrap and weaker metal prices posed significant challenges in FY2024, leading to a revenue decline in the Commodities segment by S\$32.10 million or 63% from S\$50.64 million in FY2023 to S\$18.53 million in FY2024. The increase in Metal Components revenue has been offset by an accrual for an allowance for sales discount amounting to S\$0.23 million, mainly attributed to disputes over deliverables for orders fulfilled for a customer in previous years. The decrease in ED Coating revenue from S\$14.25 million in FY2023 to S\$12.72 million in FY2024 was attributed to a general market slowdown, as well as the depreciation of the Ringgit Malaysia (“RM”) against the presentation currency of Singapore Dollar (“SGD”) in 1H2024. Specifically, the SGD strengthen against RM by approximately 6.3%, from RM3.295 as at 31 March 2023 to RM3.501 as at 31 March 2024.

2 Review of performance of the Group (cont'd)

2(a) Income Statement (cont'd)

(i) Revenue, cost of sales and gross profit (cont'd)

In tandem with the decrease in revenue, cost of sales decreased by S\$14.91 million or 47% from S\$31.72 million in 2H2023 to S\$16.81 million in 2H2024. Correspondingly, the Group reported gross profit of S\$2.17 million in 2H2024. Gross losses of S\$7.90 million recorded by the Group in 2H2023 was primarily attributed to a loss allowance for foreseeable losses in inventories amounting to S\$2.84 million recorded by the Commodities segment.

The Group reported a decrease in cost of sales by S\$21.24 million from S\$53.11 million in FY2023 to S\$31.87 million in FY2024. The Group reversed provision of impairment loss on inventories from prior years which amounted to S\$2.10 million, following the realisation of sales in FY2024. However, the Group's gross profitability in FY2024 was significantly impacted by the weakening prices for cobalt, nickel and lithium carbonate throughout the financial year. Combined with the lower revenue from the Commodities segment, where revenue was insufficient to cover its fixed cost, the Group reported a marginal gross profit margin of 3.9% in FY2024, compared to 19.5% in FY2023.

The Group's depreciation expenses for FY2024 remained at similar level as FY2023.

Please refer to Section E, Note 4.1 of this announcement for further details.

(ii) Other operating income

The Group reported other operating loss in 2H2024, mainly due to reclassification of copper sales revenue from other operating income to revenue. With implementation of new inventory management system, the cost of each metal components recovered from scraps can now be allocated reasonably. The reclassification aligns with the presentation and disclosure requirement under the financial reporting standard. As a result, the other operating income decreased by S\$2.12 million or 72% from S\$2.94 million in FY2023 to S\$0.82 million in FY2024. Save as disclosed, there are no other significant factors contributing to the decline in other operating income reported by the Group in 2H2024 and FY2024.

(iii) Other gains and losses

The Group recorded losses of S\$0.44 million in 2H2024, compared to a significant gain of S\$12.39 million in 2H2023. The gain in 2H2023 included a one-off gain on debts settlement of S\$11.50 million, following the completion of the Company and SMCI's schemes of arrangement pursuant to Section 210 of the Companies Act 1967 read with Section 117 of the Insolvency, Restructuring and Dissolution Act 2018 ("**Schemes**"), as well as the extinguishment of liabilities under the Schemes in 2H2023.

The other losses reported in 2H2024 and FY2024 mainly stemmed from foreign exchange losses of S\$0.41 million in 2H2024 (2H2023: net foreign exchange gain of S\$1.09 million) and S\$0.54 million in FY2024 (FY2023: S\$1.97 million), due to depreciation of United States Dollar against the Singapore Dollar, where the USD exchange rate was low at S\$1.2806 as at 30 September 2024 (30 September 2023: S\$1.3648). Following the completion of the Schemes, the Group's foreign currency risk exposure was lower in FY2024 compared to FY2023. As a result, the Group recorded other losses of S\$0.60 million in FY2024 (FY2023: other gain of S\$9.51 million).

(iv) Distribution expenses

In tandem with the decrease in trading activities from the Commodities segment, distribution expenses decreased by S\$0.21 million from S\$0.27 million 2H2023 to S\$60,000 in 2H2024. Correspondingly, distribution expenses decreased by S\$0.42 million from S\$0.54 million in FY2023 to S\$0.12 million in FY2024.

(v) Administrative expenses

The Group saw a decrease in administrative expenses by S\$0.88 million in 2H2024 from S\$3.40 million in 2H2023 to S\$2.52 million in 2H2024. The decrease was mainly due to decrease in total employee expenses of S\$1.04 million or 20%, driven by voluntary pay-cut taken by a key management personnel and a lower bonus provision due to weaker financial performance. Consequently, the administration expenses for FY2024 decreased by S\$0.77 million or 12%, from S\$6.57 million in FY2023 to S\$5.80 million.

(vi) Income tax (expenses)/credits

In 2H2024, the Group reported net income benefits of S\$1.24 million. These income tax benefits primarily stemmed from the recognition of unutilised tax losses as DTA. The recognition was grounded in the high probability that sufficient future taxable profits would be available to offset the utilised tax losses.

The Group's income expenses increased by S\$2.44 million from S\$3.59 million in FY2023 to S\$6.03 million in FY2024, mainly due to (i) reversal of DTA and the corresponding effect of incremental income tax for the financial years ended 30 September 2022 and 2023, as mentioned in Section E, Note 1.1(i) above, resulting in an aggregate increase in tax expense of S\$5.69 million reflected in FY2024; (ii) provision of tax expense of S\$0.67 million in accordance with the profits reported by profitable entities under the Group, offset by (iii) net income tax benefits of S\$0.53 million stemmed from the recognition of unutilised tax losses as DTA in FY2024.

Please refer to Section E, Note 7 of this announcement for further details.

(vii) Finance expenses

Along with the reduction in principal amounts following repayments, finance expenses decreased by S\$58,000 or 15% from S\$0.40 million in FY2023 to S\$0.34 million in FY2024.

(viii) (Loss)/ Profit for the period/year

As a result of the aforementioned, the Group reported net loss of S\$0.16 million for 2H2024 (2H2023: net profit of S\$2.61 million) and net loss of S\$10.78 million in FY2024 (FY2023: net profit of S\$14.23 million).

2(b) Statement of financial position

As at 30 September 2024, the Group recorded positive working capital of S\$8.22 million (30 September 2023: S\$18.69 million) and basic net asset value per share of 0.77 Singapore cents (30 September 2023: 1.08 Singapore cents).

(i) Non-current assets

The Group's non-current assets as at 30 September 2024 remained at S\$18.36 million, similar level as compared to S\$18.44 as at 30 September 2023, as a result of the decrease in DTA and ROU assets, offset by an increase in PPE.

The group reversed its previously recognised DTA of S\$2.48 million as at 30 September 2023 following the receipt of an amended notice of assessment from IRAS, as mentioned in Section E, Note 1.1 (i) ("**Reversal**"). The Reversal was offset by the recognition of current period unutilised tax losses as DTA of S\$0.57 million. The recognition was grounded on probability of sufficient future taxable profits would be available to offset the unutilised tax losses. As a result, the DTA declined by S\$1.92 million or 77% from S\$2.48 million as at 30 September 2023 to S\$0.57 million as at 30 September 2024.

The decrease in ROU assets was primarily driven by depreciation expense of S\$0.49 million recorded in FY2024.

PPE increased by S\$2.34 million or 17% from S\$13.91 million as at 30 September 2023 to S\$16.24 million as at 30 September 2024, mainly attributable to capital expenditure of S\$3.89 million, offset by depreciation expense of S\$1.87 million. The Commodities segment accounted for a significant portion of the capital expenditure at S\$3.64 million, which upgraded its capabilities to address the evolving landscape of lithium-ion batteries. The addition of a new battery processing line was crucial to overcoming operational challenges and enhancing efficiency.

(ii) Current assets

Current assets decreased by S\$3.40 million or 12%, from S\$28.54 million as at 30 September 2023 to S\$25.15 million as at 30 September 2024, mainly due to decrease in cash and cash equivalents.

Cash and bank balances decreased from S\$9.49 million as at 30 September 2023 to S\$6.20 million as at 30 September 2024. Please refer to Section F, Note 2(c) below on statement of cash flows for explanations on the decrease in cash and cash equivalents of the Group.

There were no other significant changes noted for trade and other receivables, and inventories between 30 September 2024 and 30 September 2023 reported thereon.

2(b) Statement of financial position (cont'd)

(iii) Current liabilities

The Group's current liabilities increased by S\$7.08 million or 72%, from S\$9.85 million as of 30 September 2023 to S\$16.93 million as of 30 September 2024. The increase was primarily attributed to advance payment received from customers, higher income tax payable, and increase in trade and other payables, offset by a decrease in loans and borrowings.

The Group received partial advance payment of S\$3.63 million as at 30 September 2024 for black mass orders scheduled for delivery in October 2024.

Income tax payable increased by S\$3.30 million as at 30 September 2024, mainly due to under provision of income tax expenses in prior financial years as outlined in Section E, Note 1.1(i) of this announcement. Please refer to Section E, Note 8 for further information.

Trade and other payables increased by S\$0.81 million or 20% from S\$3.80 million as at 30 September 2023 to S\$4.79 million as at 30 September 2024. This was primarily due to trade purchases from a new source of batteries scrap under credit terms in September 2024.

The Group recorded a decrease in loan and borrowings by S\$0.70 million or 13% from S\$5.39 million as at 30 September 2023 to S\$4.69 million as at 30 September 2024, mainly due to loan repayment which totalled S\$1.43 million, offset by a proceed from short-term loan of S\$0.67 million.

(iv) Non-current liabilities

Non-current liabilities decreased by S\$0.39 million or 18%, from S\$2.15 million as at 30 September 2023 to S\$1.76 million as at 30 September 2024, mainly due to decrease in lease liabilities attributed to the repayment of financial lease obligations.

2(c) Statement of cash flows

Net cash from operating activities in FY2024 was S\$2.07 million. This was mainly due to (i) decrease in inventories of S\$1.87 million; (ii) increase in advance payment from customers of S\$3.64 million; (iii) increase in trade and other payables of S\$0.80 million; and (iv) decrease in trade and other receivables of S\$0.57 million, offset by (v) loss before changes in working capital of S\$4.05 million.

Net cash used in investing activities in FY2024 was S\$3.80 million, mainly due to the purchase of plant and equipment of S\$3.88 million, offset by interest income of S\$0.13 million.

Net cash used in financing activities in FY2024 was S\$1.55 million, mainly due to (i) repayment of lease liabilities of S\$0.52 million; (ii) repayment of bank loans of S\$1.43 million; (iii) interest paid to financial institutions of S\$0.28 million, offset by (iv) proceeds from short-term loan of 0.67 million.

As a result, the Group utilised cash and cash equivalents of S\$3.29 million in FY2024. The cash and cash equivalents as at 30 September 2024 amounted to S\$6.17 million.

4 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Commodities segment

The re-election of Donald Trump as U.S. President is anticipated to significant impact Southeast Asia's macroeconomy and the EV battery recycling industry. Trump's "America First" approach and protectionist trade policies may lead to increased tariffs and reduced U.S. trade engagement with the region, potentially slowing trade and economic growth in Southeast Asia, which is heavily reliant on exports. Potential trade wars, particularly with China, could further destabilise the region and disrupt global supply chains¹.

In the EV sector, Trump's previous policies of rolling back incentives for electric vehicles and promoting fossil fuel industries could hinder EV adoption in the U.S., potentially reducing the volume of batteries available for recycling². However, his focus on domestic manufacturing and resource independence may support domestic battery recycling initiatives, presenting growth opportunities within the U.S.²

ED Coating segment

The announced increase in Malaysia's minimum wage to RM1,700, effective 1 February 2025³, is expected to significantly impact the Group's profitability in the labour-intensive ED coating segment. Rising labour costs will pressure margins, especially in a highly competitive market where price adjustments are limited. To address this, the Group will prioritise operational efficiencies, adopt automation where feasible, and invest in workforce training to optimise productivity. Concurrently, the Group will explore value-added services and strategic pricing initiatives to mitigate the impact on profitability.

Conclusion

In summary, Trump's victory is likely to introduce trade challenges for Southeast Asia and create a complex landscape for the EV battery recycling industry, with potential shifts in policy affecting both sectors¹. Southeast Asia's economic growth could face headwinds from heightened trade tensions and reduced multilateral cooperation. The EV battery recycling business's impact will depend on how global markets, particularly Europe and Asia, continue to drive demand for EVs amidst potential U.S. policy changes⁴.

- 4 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months (cont'd).**

The Group's announcement dated 14 May 2024 highlighted key challenges and opportunities within the battery metal market and automotive industry, including anticipated declines in metal prices, a slowdown in Malaysia's automotive sales, and increased operational costs driven by regulatory changes. These factors remain relevant and, combined with current developments, reinforce the need for a cautious yet adaptable approach. The Group will focus on balancing cost management with efforts to enhance productivity and operational efficiency, ensuring resilience in a dynamic business environment.
