Save as disclosed in paragraph 5 below, the Group has applied the same accounting policies and methods of computation in the financial statements for the current financial period as those used in the most recently audited financial statements for the financial year ended 30 September 2016 ("FY2016").

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of the change.

The Group has adopted the applicable new and/or revised Financial Reporting Standards ("FRS") and Interpretations of Financial Reporting Standards ("INT FRS") which are effective for the financial periods beginning on or after 1 October 2016.

The adoption of these new or revised FRS and INT FRS did not result in any substantial change to the Group's accounting policies and has no material financial impact on the Group's financial statements for the current financial year reported on.

6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.

The basic and diluted EPS or LPS for the financial year ended 30 September 2017 ("FY2017") and 30 September 2016 ("FY2016") were the same as there were no potentially dilutive ordinary shares in issue as at end of the respective financial years. For FY2017, the potential ordinary shares to be converted under the Convertible Notes are anti-dilutive as the conversion would result in higher diluted earnings per share than the basic earnings per share.

The Company has a balance of \$1,900,000 Convertible Notes as at 30 September 2017, which can be converted into 26,388,887 shares, after disregarding fractional entitlements of the Subscribers.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Statement of Comprehensive Income

For FY2017, the Group recorded revenue, profit before tax, and profit after tax of \$207.2 million, \$3.7 million and \$2.8 million respectively.

The Group's revenue increased by \$55.0 million or 36.1% due mainly to the increase of revenue in the trading of commodities segment, which in turn is attributable to higher sales demand from the Republic of China ("**PRC**") region. Revenues from other business segments stayed relatively constant. The Group registered a profit before tax of \$3.7 million in FY2017 compared with the loss before tax of \$1.2 million in FY2016 mainly due to increase in revenue and the decrease in net foreign exchange translation loss from the trading of commodities segment (the "**FX Loss**").

Gross profit increased by \$5.2 million or 43.7% due mainly to a higher gross profit margin of 8.3% in FY2017 (FY2016: 7.8%) as a result of lower cost overheads from tighter cost control measures adopted by the Group.

Administrative expenses increased by \$1.5 million due to relocation expenses incurred during the financial year and dual depreciation charged in second half of the year, in which the purchase of new premises at 3 Jalan Pesawat was completed in May 2017 and the sale of the premises at 16 Tuas Avenue 20 to JTC Corporation was completed after September 2017, by one of our subsidiary SMC Industrial Pte. Ltd ("**SMC**").

Other operating expenses decreased by \$1.7 million to \$1.5 million in FY2017 from \$3.2 million in FY2016 mainly due to the FX Loss.

Finance cost increased by \$0.4 million from \$1.1 million in FY2016 to \$1.5 million in FY2017 mainly due to additional trade financing obtained for working capital purposes in relation to higher sales revenue.

Statement of Financial Position

The following comparative performance for both the Group's assets and liabilities are based on the consolidated financial statements as at 30 September 2017 and 30 September 2016.

Current Assets

The Group's current assets amounted to \$68.6 million in FY2017, comprising cash and cash equivalents of \$10.4 million, trade and other receivables of \$52.5 million and inventories of \$5.8 million.

The increase in trade and other receivables of \$11.1 million and the increase in inventories of \$0.8 million, were both due to the increase in trading volume from the trading of commodities segment.

Non-Current Assets

The increase in property, plant and equipment from \$19.1 million as at 30 September 2016 to \$27.3 million as at 30 September 2017 was mainly due to the purchase of equipment and the acquisition of new premises at 3 Jalan Pesawat, Singapore in May 2017 by SMC. The increase has been partially offset by the disposal of premises at 16 Tuas Ave 20 Singapore for \$3.5 million in September 2017 and depreciation charges of \$2.0 million.

Insurance assets amounting to \$3.4 million as at 30 September 2017 relates to the cash surrender value of keyman life insurance policies purchased by one of the subsidiaries for the Executive Chairman/Executive Director of the Company, with the subsidiary being the beneficiary of the policies. These policies were pledged to banks as collaterals for banking facilities related to working capital purposes.

Working Capital

The working capital of the Group as at 30 September 2017 and 30 September 2016 are set out below:

\$'000	As at 30 September 2017 (Unaudited)	As at 30 September 2016 (Audited)
Total current assets	68,649	55,200
Total current liabilities	59,593	42,165
Working capital	9,056	13,035

The Group had a positive working capital of \$9.0 million as at 30 September 2017, compared to \$13.0 million as at 30 September 2016.

Current Liabilities

The Group's current liabilities amounted to \$59.6 million as at 30 September 2017, comprising trade and other payables of \$9.9 million, bank overdrafts, loans and trade bills of \$47.0 million, convertible notes of \$1.9 million, finance leases of \$0.2 million and income tax payable of \$0.5 million.

The bank overdrafts, loans and trade bills increased by \$11.5 million, as the facilities were drawn down to finance the increase in trading volume for trading of commodities segment.

Trade and other payables increased by \$3.7 million due mainly to increase in purchases under the trading of commodities segment during the financial year.

The increase in finance leases of \$0.1 million was due to the new finance lease obtained for financing of new machinery.

Income tax payable increased slightly by \$0.2 million despite the significant increase in profit before tax due mainly to the availability of unutilised business losses brought forward and tax credit to offset against the chargeable income.

Convertible notes of \$1.9 million will mature on April 30, 2018 and July 18, 2018 at \$0.9 million and \$1.0 million respectively. Hence, it has been reclassified from non-current liabilities to current liabilities.

Non-Current Liabilities

The Group's non-current liabilities as at 30 September 2017 decreased by \$1.2 million mainly due to the reclassification of convertible notes from non-current liabilities to current liabilities of \$1.9 million, but partially offset by the increase of non-current finance leases of \$0.4 million due to the purchase of new battery recycling machine and deferred tax liabilities of \$0.3 million.

Non-controlling interests

The Company had completed the acquisition of balance 50% shareholding interest in SMC on 24 January 2017. Post completion, SMC became a wholly-owned subsidiary of the Company. Hence, non-controlling interest is no longer present in the Group's statement of financial position as at 30 September 2017.

Cash Flow Analysis

The following comparative performance of the Group is based on financial statements for FY2017 and FY2016.

In FY2017, the Group generated net cash from operating activities before changes in working capital of \$7.1 million and the net cash inflow from operating activities amounted to \$7.1 million. This was mainly due to the higher profit before tax generated of \$3.4 million and adjustments for interest expense and depreciation of property, plant and equipment.

Net cash used in investing activities amounted to \$8.4 million in FY2017, mainly due to the purchase of property, plant and equipment.

Net cash generated from financing activities of \$1.5 million in FY2017 is mainly due to new bank loans raised of \$6.6 million, partially offset by the interest paid to the banks of \$1.5 million, repayment of borrowings of \$1.7 million, increase in pledged deposits with financial institutions of \$1.7 million and repayment of finance lease liabilities of \$0.2 million.

The outlook of our business environment remains challenging as there are many uncertainties in the region.

Our ED coating business is expected to remain stable. While the trading of commodities segment has performed better this financial year, we are cautious on the outlook of commodities' prices and the opportunities that it may present. The Group will strive to further strengthen its operations and cash flow management.

Our subsidiary SMC has set up its new processing machinery for the recycling of lithium ion batteries, and will continue enhancing its waste management and recycling capabilities. During FY2017, it has also set up 2 subsidiaries as announced through SGXNET previously, in the United Kingdom and Hong Kong, principally for strengthening the Group's supply chain in respect of the waste recycling business.
